American Social Health Association

ASHA is recognized by the public, patients, providers, and policy makers for developing and delivering accurate, medically reliable information about STDs. Public and college health clinics across the United States order ASHA's educational pamphlets and books to give to clients and students. Community-based organizations depend on ASHA, too, to help communicate about risk, transmission, prevention, testing, and treatment.

Black AIDS Institute

The Black AIDS Institute is the first Black HIV/AIDS policy center dedicated to reducing HIV/AIDS health disparities by mobilizing Black institutions and individuals in efforts to confront the epidemic in their communities. http://www.blackaids.org/

Centers for Disease Control and Prevention: HIV/AIDS

As a part of its overall public health mission, CDC provides leadership in helping control the HIV/AIDS epidemic by working with community, state, national, and international partners in surveillance, research, and prevention and evaluation activities. CDC's programs also work to improve treatment, care, and support for persons living with HIV/AIDS and to build capacity and infrastructure to address the HIV/AIDS epidemic in the United States and around the world. http://www.cdc.gov/hiv/default.htm

Centers for Disease Control and Prevention: STDs

The Division of STD Prevention, at the Centers for Disease Control and Prevention, provides national leadership through research, policy development, and support of effective services to prevent sexually transmitted diseases (including HIV infection) and their complications such as enhanced HIV transmission, infertility, adverse outcomes of pregnancy, and reproductive tract cancer.
